

Great Things Are Happening at Community Action

TO: All Employees
FROM: Gary Roberts, Executive Director
DATE: January 8, 2016
RE: Community Action Success Stories

Our agency affects the lives of thousands of people. This year we will be sure to share our accomplishments with Board and staff. Please notify me if you are aware of activities that should be included.

DAYTON POWER AND LIGHT

CAC submitted a grant application several weeks ago to DP&L for assistance with equipment and other needs at the Manchester School-Based Health Center. Last week we received a check in the mail for \$20,000! This will assist in purchasing needed vision related equipment to allow for vision services to be provided at the site.

Hats off to Kathy Way for identifying this potential funding and to Gary Roberts for preparing the application.

Great Things **Are** Happening at **Community Action**

MANCHESTER SCHOOL-BASED HEALTH CENTER BEGINS ORAL HEALTH SERVICES

ON January 6, 2016 the first dental patient was seen at our Manchester School-Based Health Center. Fifteen patients were seen the first day! Hundreds of children will be able to receive oral health services because of our efforts.

Hats off to Lori Bellomy, Dr. Sean O'Day, Amanda Hoover and Brianna Taylor.

An Open House is scheduled today at Manchester to make the public aware of the availability of dental services.
