RE: Community Action Success Stories

Our agency affects the lives of thousands of people. This year we will be sure to share our accomplishments with Board and staff. Please notify me if you are aware of activities that should be included.

COMMUNITY ACTION TRANSIT (CATS GARAGE)

The Community Action Transit (CATS Garage) provides mechanical services and also completes detailing of vehicles. A recent customer provided this unsolicited comment;

Hello to a few of my fellow Villagers....

Yesterday I took my auto to the CATS garage for an end-of-year cleaning, inside and out, and want to let you know it was a great experience, they did an excellent job. In the event you have not yet "discovered" this gem of a service, I've attached a flyer that describes their car cleaning "packages" and fees for your information. I get enthused when I come across a good thing and enjoy sharing the news... plus I love it when we can "do local."

I hope your holiday season is filled with good cheer that warms your insides!

Hats off to Ocie Jennings, our detailer.
