

REDUCED CHILD CARE FEES

SECTION 5.06

Effective Date: October 15, 2015

Approved By: Governing Board 

The purpose of this policy is to provide affordable childcare services to all employees.

The policy also expressly permits the Executive Director to establish uniform procedures for fee reduction to non-employees.

Any employee who is not eligible for subsidized child care via the agency's child care program shall have child care provided to their eligible children at 70% of the total charge for this service. In order to avail themselves of this benefit, employees will be obligated to pay in advance or sign up for payroll deduction and comply with all agency child care procedures.

Any non-employee discounts would be subject to the criteria cited above.
